World Population Day

Report (2020-21)

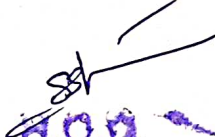

Department of Commerce celebrated Online World Population Day on 13th July 2020. Department organized online guest lecture of Prof. Patil A.C., on 'Effects of India's Population on environment.' The object of this celebration is to aware the students about explosion of Population Causes, Effects and Remedial Measures in the situation of Covid19.

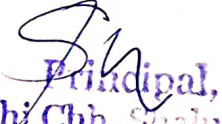

Prof. A.C.Patil expressed his views regarding :

1. Adverse effects of heavy population on social, economical and cultural human lives.
2. In Covid19 situation how the heavy population became hurdles in economic development. Remedial measures for controlling population.
3. It is one of the reasons of next world war. Remedial measures for controlling population.
4. Remedial measures for safety of human life in the absence of Covid Vaccination.
5. It is important to control the population for peace of entire world.

This eminent lecture became useful to create awareness about controlling population and our role to implement it among the students.

Total 43 students were presented for this online function. H.O.D. of Commerce Prof. Lavekar S.S., introduced the object and importance of this guest lecture . Dr. Rajamane M. R. awarded vote of thanks. Prof. Dr. Puntambekar B.S. was specially Present for this lecture. This lecture became successful under the guidance of Prin. Dr. S.T. Salunkhe.
