Report on

“Various Framework in IT Industries”

Date: 14th February, 2024

The Guest lecture on Various Framework in IT Industries was organized by Department of Computer Science, Rajarshi Chhatrapati Shahu College Kolhapur, on 14th February 2024 in Computer Science Lab. Miss. Shaikh. Z.J. (HOD, Computer Science department) gave introduction of Miss. Archana Nigade (CEO, Orange I-Tech) and felicitated them.

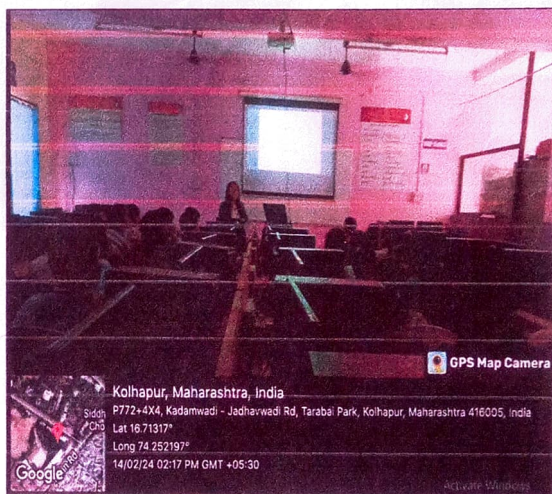

Miss. Archana Nigade started her lecture with a question that what is framework in IT industries? Some students replied that a framework is a set of conceptual structures and guidelines used to build something useful. Also ma'am told that, Frameworks are softwares that are build applications and is a collection of tools designed to help to create your projects so you do not need to start from scratch.

After the lecture question – answers session was started and then end of that session Miss. Shaikh ma'am gave vote of thanks.

Outcomes

When the basic code structure is already developed, it takes little time in building new software from it. It saves time in building an application and therefore improves efficiency.

Beneficiaries: 31 Students
