Debate  
Online Vs. Offline Education

Activity Report

A Debate on 'Online Vs. Offline Education' organized on 22<sup>nd</sup> April 2021 for B.Com II (IT) Students. Total 10 Students actively participated in this activity. The main purpose of this activity was to know the advantages of online & offline education.

They shared their views about the given topic. First group expressed their views for the online education & Second group shared their views against offline education. According to their opinions offline education is the traditional learning system where students and teachers have face to face conversation students solve the problems easily and there is no found technical issue.

Another side of this topic, online education is very convenient, flexibility brings education, right to your home, better time management and improved virtual communication. In this way, students enthusiastically participated in this activity.
