ROLE PLAY ACTIVITY

REPORT

Date:13/10/2022

Students from B.Sc. II actively participated in role play activity conducted by subject teacher Smt. D. A. Malvekar. Activity was organised at Basket ball ground in College campus at 4:00p.m. to 4:30 p.m. Topic of role play activity was “**Understanding the concept of signal transduction and glycolysis**”. Each student was allotted a specific role of protein under the topic. Total 12 students participated in this activity.

Outcome: 1. Better understanding of concept by students
2. It created subject interest among the students

No. of beneficiaries = 12
