2021-2022

Celebration of Energy Conservation Day
14th December

In India, National Energy Conservation Day is observed every year on **14th December** to raise awareness about the significance of energy and the need of conserving energy by using less energy. The Energy Conservation Act in India was executed by the Bureau of Energy Efficiency (BEE) in the year 2001. The Bureau of Energy Efficiency is a constitutional body which comes under Government of India and helps in the development of policies and strategies in order to reduce the energy use.

❖ What is the Energy Conservation?

National energy conservation day in India is celebrated to awarepeople about the importance of energy as well as saving or conservingthe more energy by using less energy. The exact means of energy conservation is using less energy by avoiding the unnecessary uses of energy. Using energy efficiently is very necessary to save it for the
