REPORT ON ONE DAY LOCAL VISIT

Educational visit has its own importance in a career of a student who is pursuing a regular or professional degree. It is considered as a part of college curriculum. The main objective of visit is to provide students an insight of the practical application of what they are learning in theory because; theoretical knowledge is not enough for making a good professional career.

On 25th April, 2022 our B.A.I, B.A.II & B.A.III year, 8 students along with 02 faculty member have visited to Regional Sugarcane and Jaggery Research Centre, Kolhapur for the practical exposure and instrumental information. Dr. Sukhdev Ransing (Sugarcane Breeder) gave information regarding actual process of Regional Sugarcane and Jaggery Research Centre.

The students have shown their interests and actively participated in the visit. Dr. M. D. Kadam and Dr. B. B. Ghurake took the initiative in organizing the educational visit and also accompanied the students.

Outcome: Students became familiar about the role of Regional Sugarcane and Jaggery Research Centre.

A Report of Study Tour & Village Survey (Field Work)
(2021-22)

During this academic year, the department of geography has successfully completed the study tour of Ganapatipule, Ratnagiri and Pawas as these destinations having geographical and religious importance. This study tour was organized from 8th April to 9th April 2022. 15 students were benefited of this tour.

The students and faculties of the department have conducted a village survey of Aainwadi, (Shahuwadi) on 20th and 21st April 2022 and prepared a report on "Agricultural Land Use: A Geographical Study of Aainwadi Village". 15 students were benefited by this activity.

The Principal and IQAC of the college have given valuable guidance and suggestions in order to perform these activities.

Outcome of the Program: Students have acquainted the skill of observation of Geographical features, sample survey and writing a project report.

STUDY VISIT REPORT (2021-22)

Date: 09/05/2022

As per the part of syllabus set by Shivaji University, Kolhapur Department of Zoology arranged one day study visit to Shivaji University, Kolhapur on 07th of May, 2022. This study visit was for B.Sc. Part I and B.Sc. Part II students.

Total 80 Students along with Mr. S. S. Jagtap from Department of Zoology, Mr. S. Gojare from Department of Botany, Mr. R. Patil, Mr. N. Sankpal and Dr. A. Patil from department of Physics, Mr. R. Shete from department of Mathematics and Mr. Dhodmani from department of Chemistry actively participated in this visit. Visit was started at sharp 10:30 a.m. from Nanoscience and technology department. We 1st visited NanoScience and Technology department. Mr. Navnath sir and research student gave information about Chemistry, Nanoelectronic, Nanophysics and Biotechnology laboratory. Research student Mr. Patil and Mr. Jadhav sir from Department of Physics guided us about various instruments and instrumental work in physics department.

We also visited lead Botanical garden of Department of Botany. Research student Miss. Akansha Jaswani and Mr. Akshay Jangam from Department of Botany gave detailed information about various medicinal plants, Gymnospermic plants, various palms. We visited their nursery. Most fascinating point in department of Botany is petrified fossil which is 33.7 to 23.8 million years old.

We visited Sericulture unit of Department of Zoology. Project assistant Mr. Tejas Bodgire showed us life stages of mulberry silkworm and also he gave detailed information about importance of silk, its extraction process and its export. Research student, Miss Bhasme ma'am gave detailed information about feeding and maintenance of rat. She also gave information about importance of these animals in clinical research. Outcome of this visit resulted into creation of awareness about diversity of animals and plants in nature and their uses for the human welfare among the students.

Marks-50 (Credits: 02)

PRACTICAL-II (Based on Reproductive Biology and Applied Zoology of Semester-IV).

Unit: 1

Reproductive Biology:

1. Study of animal house: set up and maintenance of animal house, breeding techniques, care of normal and experimental animals.
2. Examination of vaginal smear rats from live animals/Study of stages of estrus cycle through permanent slides.
3. Surgical techniques: principles of surgery in endocrinology. Ovarectomy, hysterectomy, castration and vasectomy in rats. Demonstration or film only.
4. Examination of histological sections from photomicrographs/ permanent slides of rat: testis, epididymis and accessory glands of male reproductive systems; Sections of ovary, fallopian tube, uterus (proliferative and secretory stages), cervix and vagina.
5. Human vaginal exfoliate cytology.
6. Sperm count and sperm motility in rat/ Any mammal.
7. Study of modern contraceptive devices by photographs or models.

Unit: 2

Applied Zoology:

1. Study of arthropod vectors associated with human diseases: *Pediculus*, *Culex*, *Anopheles*, *Aedes* and *Xenopsylla*.
2. Study of insect damage to different plant parts/stored grains through damaged products/photographs.
3. Identifying feature and economic importance of *Helicoverpa (Heliothis) armigera*, *Papilio demoleus*, *Pyrilla perpusilla*, *Callosobruchus chinensis*, *Sitophilus oryzae* and *Tribolium castaneum*.
4. Field trip to poultry farm or animal breeding centre or any suitable place to study animal diversity or any place related to theory syllabus. Submission of field trip report (Printed/Hand writings).

STUDENTS VISIT TO FISH MARKET KOLHAPUR
REPORT

Date: 05 /01/2022

As per the syllabus of Shivaji University, Kolhapur our Department planned one day visit of B. Sc. III students to Fish market at Bindu Chowk Kolhapur. Total 19 students along with 3 teachers visited fish market on 5th January, 2022 at 10:00 a.m.

Kolhapur fish market at Bindu chowk is very famous for fresh fish meat along with fresh water crabs, marine water crabs as well as variety of aquatic edible animals. Students collected all the information about various fishes, crabs, mussels etc.

Outcome of this visit resulted into more familiarity of the subject to students. Students get familiar with different types of fishes such as Rohu, Takali, Panaga, Pomfret, Surmai, Mandeli, Tuna, Palu, Tamber etc. They understood about nutritive values of various sea foods. Fisherman named Mr. Ajay Gosavi from Phulewadi, Kolhapur gave detail information about various sea foods available at Kolhapur fish market.

Study Tour Report

The study tour visit of the B.Sc. III Physics student was organized to visit **Department of Physics and School of Nanoscience and Nanotechnology**, Shivaji University Kolhapur on **7th May 2022** between **11.30 a.m. to 04.30 pm** under the guidance of **Dr. V.V. Killedar**. This visit is part of **B. Sc.III physics** curriculum of shivaji university Kolhapur. There is a provision of 10 marks for the study tour in Curriculum.

On **7th May 2022, between 11.30 a.m.to 04.30 pm**, B.Sc. III students along with **Dr. A. S. Patil** and **Mr. R. T. Patil, Mr. N.V.Sankpal** visited School of Nanoscience and Nanotechnology with the prior permission of **Dr. Sharma**, Coordinator of school of Nanoscience and technology. In the beginning, **Mr. Navnath Chavan** introduced us about the school and the instrumentation facilities available in this school. He told us about the importance of nanotechnology in coming future. He also given the information about the admission process, the courses run by this department. Mr. Chavan gave us information about various thin film deposition techniques such as Spray pyrolysis method, Electrospinning unit, SILAR method, Deep coating method, Spin coating method. He also gave information about the instruments which are used for the characterization of deposited thin films like Ultra probe Sonicator, UV- VIS spectrophotometer.

In the Biology Department of this school we have seen the refrigerator in which biological samples are maintained up to temperature -20°C . In this lab we have seen centrifuge machines , electrophoresis unit autoclave biospectrometer etc.

After taking lunch break of half hour we went to Physics Department, Shivaji University, Kolhapur at **02.30 p.m.** with the prior permission of **Prof. (Dr.) K. Y. Rajpure**,

Head
Department of Physics
Rajwade Chh. Shahu College, Kolhapur.

Head Department of physics. **Prof. (Dr.) K. Y. Rajpure** introduced us about the Department of Physics and the instrumentation facilities available in the department firstly we visited the solid state physics laboratory. In this laboratory we saw **Scanning Electron Microscope (SEM), Sputter Coater and FT-Raman spectrometer**. Then we visited to PIFC (Physics Instrumentation Facility Centre). In this centre we saw **X- ray diffractometer, IV characteristic of solar cell, Contact angle Goniometer, CT- Meter, Spectrofluoro meter/ Fluoromax 4, LCR meter bridge, Field Emission- Scanning Electron Microscope (FE-SEM), surface area analyzer, Atomic Force Microscopy, Surface Profiler, Photoluminescence meter etc.**

Research Scholar Mr. Satyajeet patil gave information about scanning electron microscope (SEM). He told that scanning electron microscope is used to study morphology of any material. The cost of SEM is **65 lakhs**.

Then we saw the instrument sputter coater. It is used for preparation of samples using gold coating for SEM. The cost of sputter coater is **10 lakhs** rupees. Then Raman spectrometer, which is also used for the conformation of synthesized materials. It is cost **60 lakhs**. In common Facility centre there is surface area analyzer which is used to detect ion to the surface area of material by using wire atmosphere. The cost of these instruments is **12.5 lakhs**. He also gave information about FT-Raman, which is used to study chemical bonds in the material.

We also saw **LCR Meter Bridge** related to electronics this meter bridge is used for to measurement of inductance, capacitors and resistance.

Then we went to the important instrument which is **X-Ray Diffractometer**. Mr. Lahu Namade gave us information of X-ray diffractometer. X-ray diffraction is a powerful

tool used to uniquely identify the crystalline phases present in materials and to study the structural properties like strain, grain size, phase composition, defect structure, and preferred orientation etc. The sample used for this instrument is in the form of powder or solid thin film.

Ms Sarika Dhavale gave us information about Surface profiler. This instrument is used to measure thickness of thin films. we also saw solar stimulator and solar power system instruments like solar heater, solar P-V Panel etc. At the end Mr. Raviraja patil gave us information about advanced FE-SEM which cost around **2.0 crore rupees.**

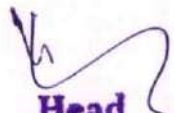

From this study tour we come to know that there are valuable & costly instruments useful for material characterization in research work. These instruments use basic principles of physics in their design. We are greatly inspired by the valuable information given by **Dr. K. Y. Rajpure.** We also know the scope of Physics subject in the development of technology.

We are grateful to **prof. Sharma**, Co-ordinator School of Nanoscience and Nanotechnology and **Prof. (Dr.) K. Y. Rajpure**, Head, Department of Physics for giving permission to visit the department. We are very much thankful to **Dr. V. V. Killedar, HOD of physics** and **Dr. A. S. Patil & Mr. R. T. Patil, Mr. N. V. Sankpal** for arranging this study tour which creates awareness about research amongst the students. We are also thankful to **I/c Principle Dr. V. V. Killedar** for giving permission to organize the study tour.
