The chief guest Mr. Vikrant Patil (Member, College Development Committee R. C. Shahu College, Kolhapur). He said Agriculture in India is still a traditional procedure. But when you compare it with the other foreign countries, they call it Modern Agriculture. The difference between both is the use of Technology methods in Agriculture. Technology and Modern methods in Agriculture have a huge scope in India, slowly, there is a shift that we can observe. But still, it is not on a par level when we compare with the other overseas countries.

The President of the function Prof. R. S. Dubal said, The most important reason behind less scope in Modern Agriculture is the lack of awareness among the farmers. Hence we have tried our best to bring the latest Modern Technology methods to Agriculture. The Subject Expert Dr. Satyanarayan Arde (Prof in chemistry, Yashwantrao Chavan College, Wananagr), discuss various points in detail, Aeroponics System of Modern Farming Methods, Aquaponics of Modern Farming Methods, Hydroponics of Modern Farming Methods, Monoculture of Modern Farming Methods, Tissue culture of Modern Farming Methods, Drones in Modern Farming Methods, Vertical Farming: Hybrid Seed Technology etc.
